

TURBINE FLOW METER

Technical Data:

- Brand Name: KHP turbine flow meter
- Model Number: ATF series turbine flow meter
- Accuracy: $\pm 1.0\%$
- Body Material: stainless steel
- Connections: flange, clamp, threaded
- Temperature: -30°C ~ 60°C
- Medium temperature: -40°C ~ 150°C
- Pipe size range: DN2-DN50
- Output Signal: pulse, 4-20mA
- Working pressure: 1.5Mpa. 2Mpa. 4Mpa. 6Mpa
- Medium: liquid, Gas
- Protection Grade: IP 65
- Communication: RS485. MODBUS
- Internal propeller shaft: tungsten carbide
- Internal propeller: PVDF
- Power supply: 24VDC 20ma

Usage places:

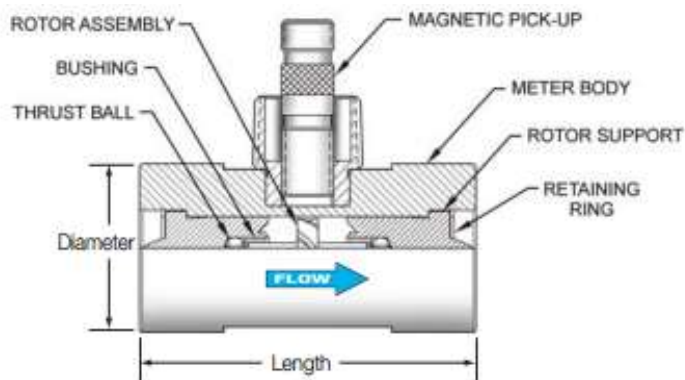

Dairy industries

Food industries

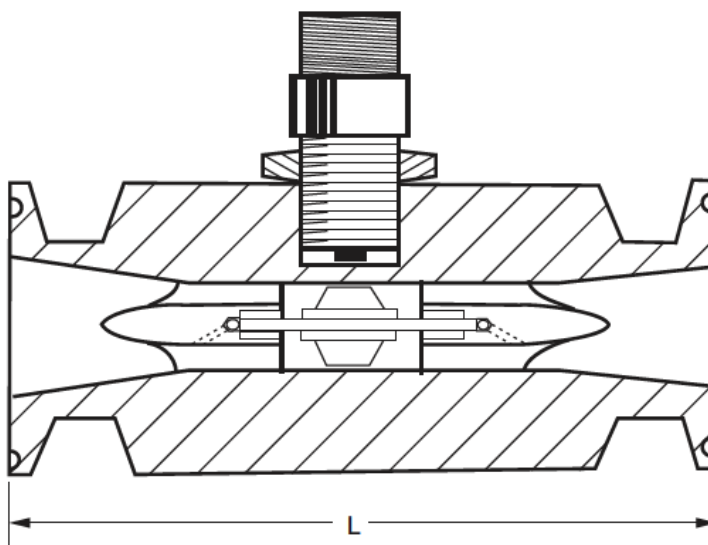

Chemical industries

Oil & gas

Internal details:

Principle of operation:

Clamp Type for dairy industries
